ABOUT US

Triumph Technocrat conceptualized on 28 Aug 2000, is now a fully established company, providing complete Constructed building solution with a world class manufacturing unit of PEB and Steel Structure in Ahmednagar location. Triumph Technocrat started working for metal Industry mainly for Pre-Engineered Building Steel structure. After spending more than half-a-decade successfully, we later extended to Pre - Engineered Buildings with the development of fully equipped workshop facility, which later turned many PEB plants in Western INDIA. Now since 2003 Triumph Technocrat is Providing Complete Building Solution with Pre-Engineered Construction as its core competency along with its professionally experienced and dedicated Team of Design, Fabrication, Production & Erection.

VISION

Triumph Technocrat, strives to be the customers first choice for construction services based upon our ongoing record of meeting their expectations, the company will expand its efforts to grow profitably by meeting customers needs today & in the future by continuing to provide value-added construction services to our customers & by creating an environment that fosters growth & development of our people.

MISSION

We are committed to innovative growth through our personal passion, reinforced by a professional mindset, creating value for all those we touch.

CORE VALUES

Maintain Integrity At All Times

MAIN SERVICES

PEB CONSTRUCTION

Pre Engineered Buildings (PEB) are the buildings which are engineered at a factory and assembled at site. Usually PEBs are steel structures.

MEP SERVICES & SOLUTIONS

Mechanical, Electrical and Plumbing (MEP) systems are an important part of building services and can have many different functions.

CIVIL CONSTRUCTION

We provide civil turnkey solution to entire setup of Industrial project. We have successfully completing whole construction work like Road, RCC work.

TURNKEY PROJECTS

Triumph Technocrat is a construction firm obligated to complete a project according to prespecified criteria for a price that is fixed at the time the contract is signed.

OUR INFRASTRUCTURE

We are backed with an advanced and sophisticated infrastructural facility that is spread over a sprawling area of land. It is fitted with all the requisite facilities that empower us to carry out our entire activities in an organized and timely manner meeting the bulk and urgent orders of our clients. Moreover, our infrastructural base is segregated into varied sub-functional units that are well-equipped with all ultra modern machines and tools improving the rate of production and quality of products. Our well-developed laboratory and production unit are supervised by team of highly qualified professionals developing the offered range in adherence to industry set regulations. Our infrastructure comprises:

- ✓ Manufacturing
- ✓ Quality testing
- ✓ Research and development
- ✓ Warehousing and Packaging
